- Liquid Propane Fire Pit comes complete with 5 ft. hose & regulator (LP tank not included).

## OUTDOOR BARBECUE, FIREPITS & FIREPLACES

### Outdoor Fireplaces

Sunsets only last a few minutes. But the warmth will last as long as you like. After sundown, your neighbors may have to head inside but with a flip of a switch, the Fire Stone Gas Fire will make you want to stay and see the moon rise. If the evening turns cool, a patented design lets heat radiate forward – not escape upward – to keep you and your guests cozy and comfortable. Built to stand up to the elements for years, your Fire Stone Gas Fire 42 will provide an elegant focal point for any outside living area – and an open invitation for family and friends to gather around.

### Fire Stone Electric Grills

**The "Condo" Cook Number™ Grill** - There are over 30 million people with balconies in North America - Finally, they can grill.

If you are one of the millions whose buildings do not allow open flames, or if you love to grill, then the Condo Cook Number Grill is right for you. It's simply the most powerful electric grill on the market. And the only electric grill with patented Cook Number technology.

Ten precision settings tell you when your food is cooked exactly the way you want it! It uses standard 110-volt current but it does what our big Cook Number Grills do in places no gas or charcoal grill can go.

LG20/E

PBC-GRGD-K

PBC-GL

#### Features:

- The first Grill Specifically designed for balconies - and any place open flames aren't allowed.
- Just 20.5" x 18" x 9.5" and 36 lbs
- The most powerful electric grill on the market.
- The only electric grill that cooks food the way you like it, automatically.
- Reaches a searing 500°F in less than 5 minutes.
- Works on standard 110 volt current.
- Rustproof, lightweight, made of restaurant-quality 18-gauge stainless steel.

## GAS GRILLS

### Fire Stone Gas Grills

#### The Ultimate Cooking Machine. Fire Stone's Cook Number™ Legacy 24" and 36" Gas Grills.

Convection cooking means the hood stays closed for perfectly even temperatures to give you perfect results - four ways. Now you can grill without burning, sear meats like a fine restaurant, roast chickens - even turkeys - and bake everything from cookies to souffles! In short, you'll be a better cook, instantly. Foolproof technology makes the Legacy the ultimate cooking machine. It only looks like a grill.

#### Grilling Without The Guesswork. The Cook Number™ System.

With our unique Cook Number System on all Fire Stone grills, anyone can cook like a gourmet chef. This innovative system consists of specific cook numbers that represent food temperatures. A dial on the front of the grill displays numbers one through ten, each correlating with a specific temperature. The cook number is determined by deciding what temperature you want your food to reach. When that has been determined, simply insert the built-in temperature probe in the food and set the dial to the cook number. When the food has reached the correct temperature, the grill will beep and light up, signaling that the food is done.

Ten Precision Settings Let You Grill - Sear - Roast - Even Bake Anything! Perfectly!

#### 20" Portable Gas Grill

#### Features:

**Exclusive Even-Flow™** convection grilling eliminates hot spots to prevent burning and overcooking or cold spots leaving food undercooked - completely eliminating the need for a rotisserie. **Exclusive Grill Tech™** monitoring system - just set the desired internal temperature, insert the temperature probe and that's it! A light on the panel and a beep alerts you so you don't have to open the hood until the food's perfectly done. **Exclusive HeatXchange System™** - a moveable burner with a unique shift lever on the control panel lets you grill, roast and bake, or focus high temperature on the searing plates. (Searing plates not only seal in juices for meats but can be used as sauté plates for vegetables).

- Electronic ignition system for easy starts every time
- Fire Stone Convection Grill Technology maximizes usage of BTUs - your gas tank lasts longer.
- High-performance without the high price tag.
- Durable stainless steel construction - designed to last a lifetime.
- Patented technology - UL listed.
- Fire Stone GreatRoom™ Islands available for built-in Legacy Grills.

## BRADLEY SMOKERS

### Bradley Smokers

Create the perfect dish of hot smoked salmon on your boat, after catching your fish that very afternoon. How about mouth-watering buffalo wings at your next tailgate party? Or maybe you'd like to wake up the family to the smell of smoked ham for breakfast at the campsite!

Whatever the perfect meal is, and wherever you crave it, enjoy the full rich flavors that natural wood brings to your favorite foods and recipes....anytime....anywhere!

## BRADLEY SMOKERS

### Flavor Bisquettes for Bradley Smokers

Our bisquettes are hardwood chippings bound together using precise quantities, at controlled pressures and densities. The flavor of the smoke is determined by the variety of wood being burned. A flavor bisquette burned once every 20 minutes produced a clean smoke flavor. As each is burnt, it is gently pushed from the burner element by the next bisquette, to be extinguished in the pot of water. The cycle continues for as long as the Bradley Smoker is loaded with bisquettes. A 48-pack of bisquettes will produce 16 hours of smoke, a 60-pack will produce 20 hours of smoke, and a 120-pack will produce 40 hours of smoke.

When wood burns, the smoke flavor is produced in the initial minutes of the burn. Wood chippings or sawdust, burnt for too long impart a bitter after-taste to smoked food. The flavor will also be affected by fluctuating high temperatures, gases and resins. However, with the Bradley Flavor Bisquettes you get perfect results every time you smoke.

## PERGOLAS

### Fire Stone Pergolas

It does much more than bring all your outdoor elements together, it bring families and friends together. It creates an attractive focal point on your deck or grounds, an environment that begs to be decorated. Nothing you can do to your home can, so quickly, easily and affordably, produce such a visual impact while adding permanent value. Because of the nature of these products, please allow 5 to 6 weeks for delivery on some models and options.

## BBQ BOXES & QUICK DISCONNECT COUPLINGS

### MEC Gas Boxes

Utilizes standard LP Gas outdoor appliance regulator and connector. Both models provide full capacity operation at 10 PSI or higher inlet pressures for all outdoor appliances without modification or the hassles of a 20 LB cylinder. Simply thread the Type I QCC or POL connector onto the MEC Gas Box, turn on the shutoff valve and enjoy continuous LP Gas flow.

**Features:**

- Universal 1-5/16" M. Acme/F. POL Outlet Connection
- Universal Mounting Hardware
- Universal 1/2" FNPT Inlet Connection
- Hinged Cover with Latching Mechanism
- Primary Shutoff Valve for Each Outlet Connection
- Weather Resistant Nylon Case
- Secondary Safety Shutoff Poppet at Each Outlet
- Single or Dual Outlet Models Available in for Zero Discharge at Disconnect Black, Gray, or Ivory
- For Use with 0-350 PSI Inlet Pressure
